Respiratory Accessories

Oxygen Tubing
Masks
Water Trap

Oxygen Tubing

- Kink resistant six channel inner lumen design
- Available in two durometer options: 75 shore (clear) and 85 shore (green)

75 durometer tubing is soft, flexible tubing that remains straight when uncoiled due to "no memory" design

85 durometer tubing inhibits twisting of the tubing which sometimes occurs in longer lengths due to patient movement

Aerosol "Tee"

- Multi-use, universal respiratory connector (22 mm OD, 15 mm ID)
- Loop on "T" facilitates hanging

Super Spike Mask

It's "cartoon" like appearance can give children a calming effect when taking an aerosol respiratory treatment.

*Sold with the VixOne™ and UniHeart™ nebulizer kits.

Cylinder Wrench

- Lightweight yet rugged glass filled nylon plastic design
- Yoke choke equipped

Oxygen and Aerosol Masks

- Swivel snout accommodates multiple patient positions.
- Transparent mask allows clear view for patient assessment.
- Elastic strap with end caps are adjustable and easy to thread.

In-Line Water Trap

- Helps eliminate unsafe and unnecessary moisture accumulation in the oxygen tubing
- Barbed connectors on end caps help prevent unwanted separation of tubing from end caps
